

Checklist

Learning Objectives

- Being able to identify the actions which results in environmental issues
- Understanding purpose of land reclamation and its ability to achieve ZERO Hunger (Goal 2)
- Understand the role of EIA in conducting land reclamation for sustainable development.
- Relate each comic to the United Nations Sustainability Goals (UN-SDGs)
- Evaluate the course of action which results in the least environmental impact.
- Making environmentally conscious decisions

The recommended age categories for our Comic and Worksheet Activities are:

- **Intermediate:** Age 13-15 years
- **Advanced:** Age 16-18 years

A scheduled plan has been proposed for the Comic Reading and Worksheets Activities, which shall span over 3 weeks, for each age category. Read each comic and complete the corresponding worksheet activities.

The recommended duration for the reading of each comic and completion of worksheet activities is one week. To self-monitor your progress, complete the self-reflection activity at the end of each week.

Advanced Level Schedule (Age 16-18 years)
